**CSIR-CDRI Invites Expression of Interest (EOI) for Licensing  
“Polymeric Liposomal Formulation for Keratitis”**

CSIR-Central Drug Research Institute is a constituent laboratory of Council of Scientific & Industrial Research, an autonomous body under Ministry of Science & Technology, Govt. of India. CSIR-CDRI is happy to announce that it has developed Novel technology entitled: **Polymeric Liposomal Formulation for Keratitis.**

**Brief introduction of the technology:**

A corneal targeted sustain release eye drop formulation developed. The formulation was applied for ocular delivery of Amphotericin B.

**Salient features of the technology:**

We have developed an eye drop formulation of Amphotericin B which has the following advantages:

1. Corneal targeted which after single instillation maintains corneal amphotericin B for ~ 10 hr above MIC in rabbit model.
2. Reduce total dose for cure and dosing frequency required for therapy.
3. Reduce dosing frequency to enhance patient compliance and cure.

EOI is invited from interested companies for licensing the above novel technology for its further development and commercialization of the technology. The application including the details of company profile and marketing strategies should reach the undersigned within 15 days of issuing of this notification. The selected parties shall be called for discussions.

Interested parties may send their Expression of Interest in a sealed cover superscripting “Expression of Interest for technology ” addressed to the
