

Procurement Projection for the Next 3-5 Year and current year

Sl no	Procurement projections	Page No
1.	Procurement projections for the next 3-5 years for high value goods (Major Facilities proposed to be established and associated high value equipment's)	2
2.	Procurement projections for the next 3-5 years for commonly procured Non-consumable goods (Name of the Apparatus & Equipment)	3-5
3.	Procurement projections for the next 3-5 years for commonly procured consumable goods Name of the Chemical, Plasticwares, Glassware, Stationery	6-18
4.	Equipment Procurement Plan List of Equipment approved by competent authority for yearly Procurement	19-30

1. Procurement projections for the next 3-5 years for high value goods (Major Facilities proposed to be established and associated high value equipments)

Actual Procurement depends upon the budgetary allocation from CSIR and funding agencies

Sl. No.	Major Facilities proposed to be established and associated high value equipments	Rs. In Crore
1.	Animal Imaging Facility (Ultra Sonography, MRI, Pressure Volume System, <i>in vivo</i> image analyzer, Live cell fluorescent imaging system, Gamma irradiator)	25
2.	High Resolution Cryo-EM facility for structure based drug discovery studies	22
3.	Protein processing and purification facility for biologicals	20
4.	Up-gradation of Animal Facility (IVC Cages, controlled rate freezer, Micromanipulator)	15
5.	Kilo Lab / GMP Facility	10
6.	Product Development and characterization (Industrial Lyophilizer, Zetasizer, Atomic Absorption Spectroscopy, Texture Analyser, High resolution Raman spectroscope with microscope, Microplate cellular screening system with complete set of modules, LCMS, MALDI-TOF, GCMS)	10
7.	Drug Target Inhibitor Characterization Facility (Bilayer interferometry, Isothermal Calorimetry)	5
8.	High-end Computational facility for AI based drug discovery applications	5

2. Procurement projections for the next 3-5 years for commonly procured Non-consumable goods (Name of the Apparatus & Equipment)

Actual Procurement depends upon the budgetary allocation from CSIR and funding agencies

Sl. No.	Name of the Apparatus & Equipment
1.	Analytical HPLC
2.	Autoclave
3.	Biological Safety Cabinet Class I & II
4.	Centrifuge
5.	CO ₂ Cylinder
6.	CO ₂ Incubator
7.	Computer with Printer
8.	Cooling Centrifuge With Accessories
9.	Deep Freezer (-20 degree)
10.	Deep Freezer (-80 degree)
11.	Desktop
12.	Digital Rocker
13.	Dimmer stat
14.	DNA & Protein Transfer equipment
15.	Dry Bath With Standard Heating
16.	Electronic Analytical Balance
17.	Electronic Top Pan Balance
18.	Electrophoresis Unit
19.	ELISA Plate Reader
20.	Evaporator Bundle With Vacuum Pump And Recirculating Chiller
21.	Fly Catcher
22.	Gel Imaging System
23.	Glow Discharge Unit (EM Unit)
24.	GPU Based Workstation Server
25.	Heating block
26.	Heating mantles
27.	Heating Stirrer
28.	High speed cooling centrifuge
29.	High Vacuum pump
30.	Homogenizer
31.	Hormone Estimation Instrument
32.	Hot air gun
33.	Hot Air Oven

34.	Hot plate

40.	IVC System For Rat
41.	Laptop
42.	Liq. Nitrogen Storage Tank With>5000 Vial Capacity
43.	Liquid Nitrogen Container
44.	Low temperature reaction bath
45.	Magnetic stirrer
46.	Melting point apparatus
47.	Mice Cages
48.	Microscope With Camera Attachment (Leica)
49.	Milli-Q Integral Water Purification System
50.	Mini 20 Degree Refrigerator
51.	Minispin
52.	Monkey Cages
53.	Mouse Ventilator
54.	Nitrogen Cylinder
55.	Overhead Stirrer
56.	Oxygen Cylinder
57.	pH Meter
58.	Phosphor imager
59.	Printer
60.	Projector
61.	Rabbit Cages
62.	Radioactivity / Scintillator Counting Machine
63.	Rat Cages
64.	Real-Time PCR
65.	Refrigerator
66.	RO Water Purification
67.	Rocker Shaker
68.	Rodent Stereotaxic Apparatus
69.	Rotavapor With Chiller
70.	Rotor For Cooling Centrifuge
71.	Shaking incubator
72.	Split AC'S

73.	Storage cabinet for acids
74.	Ultra Centrifuge
75.	Ultra-Low Immersion Cooler
76.	Ultralow Temperature Freezer
77.	Ultrasonic Cleaner
78.	UPS
79.	Urine Analyser
80.	UV Chamber
81.	V C Systems
82.	Vortex
83.	Vortex shaker
84.	Water Dispenser
85.	Water Purifier
86.	Weighing balance
87.	Western Blotting Instrument
88.	Xerox Machine

3. Procurement projections for the next 3-5 years for commonly procured consumable goods Name of the Chemical, Plasticwares, Glassware

Actual Procurement depends upon the budgetary allocation from CSIR and funding agencies

Sl. No.	Item Name	Item Type
1.	Acrylamide	Biochemical
2.	Agar Powder	Biochemical
3.	Agarose	Biochemical
